To: Whom it may concern

Earlier this year, we had a client wishing to buy a corporate, twin-engined Bell 430 helicopter and knowing that The Flight Company International in England could source such helicopters, we contacted them.

Tony Easton's services were excellent, he found us a very suitable 430 helicopter in Taiwan, handled the purchase, arranged for its shipping to a company in England for some maintenance and fitting of extra equipment, crew training and then its flight onward to us in Greece.

I can highly recommend Tony and The Flight Company International to anyone requiring corporate aviation services"

Sincerely yours

Anastasios SERBOS
Managing Director
